RE: Caribou Bridge #6255, Painting Project, WIN 021680.00

Dear Mr. Marker,

The Maine Department of Transportation is currently working on the final design of a painting project for the Caribou Bypass Bridge #6255 in the City of Caribou. Advertisement of the subject project for competitive bids is scheduled for March 2018. We estimate that the construction may begin as early as April 2018 and be completed by December 2018.

The project is further described as follows: Bridge Painting of Caribou Bridge (#6255) over B&A Railroad, located 0.35 of a mile south of Route 161.

Two-way traffic will be maintained for the duration of the project with the use of flaggers. Temporary lane closures will be allowed on the bridge during the work day for staging equipment on the bridge, as well as supplying a means of access to the work under the bridge.

We hereby request that you provide a copy of this notice to all municipal officials, employees and boards with responsibilities for utility and/or land-use planning/permitting, and that you post this letter on any municipal public bulletin boards, media outlets and/or municipal websites as a public meeting will not be held regarding this project unless specifically requested by the municipality.

Should you have any questions, concerns or other areas of interest, we would appreciate your comments and input. Please feel free to contact me at (207)446-0428 with any questions or concerns.

Sincerely,

Devin Anderson, Sr. Project Manager
Maine Department of Transportation
