Ok, great.

We should have a copy of that when it's completed.

Are you having any issues getting the surveyor to work on this? I have an alternate option if we need it.

Also, can you send the VRAP to me or do we have a copy already? It's important to include it in our documents when we get to that point.

Yes, she is working on the Phase I ESA required for the funding we are seeking from USDA.

Hi Penny,

Can you tell me what the County Environmental Engineering group is doing? Are they updating your ESA for the USDA?

I created that boundary (so the answer to her question is yes). I thought that the surveyor was going to create the lot. I'm just confused what the other engineering people are doing?

No need to duplicate efforts, that's all.

Please see below and attached regarding the parcel for the Police Station.

Thank you.

Penny

Subject: Police Station Outparcel, Site Boundaries

Hi Penny,

Before we finalize site boundaries for the police station outparcel, can you please forward the attached maps to the engineer architects to confirm the outlined 3-acre lot will be sufficient for facility construction and operation?

Thanks,
Michelle
