Hi Penny,

We will have a lot of information for you on Thursday, for Friday's meeting and Councilor Bagley. I have a medical procedure next Monday morning and cannot come to Caribou and can only probably zoom in. I can also check with Rob and see if he can join by zoom.

The mechanical electrical and structural engineers have all just begun to work on what they had halted a month ago when we re-worked the plans.

Not sure what else there is to say.

Ellen

Good morning –

Please let me know how to answer this.

I am tied up in interviews for our open Code Enforcement position until after 3pm but would love to get back to Councilor Bagley today if possible.

Thank you.

Penny Thompson

Subject: Police Station Design Development Package

Hi Penny - have you and/or members of the Public Safety Committee received the architect's Design Development Package? If I recall correctly, the architect committed to having the package to us by 3 Feb 25. If so, would you please forward to the rest of Council for review? If not, would you ask the architect when we can expect to receive the complete package?

If the package has been delivered and has been determined to be complete per the contractual requirements, I request that we place an item on the 10 Feb 25 meeting agenda for discussion and approval, and that the architect be requested to attend the meeting in person to answer any questions we might have.

Thank you very much,

Dan Bagley

Caribou City Council
