- Primary Building Use: **Business**
- Secondary Building Use:

Additional Information

- Construction Type: **Unprotected Wood Frame: Type V (000)**
- Code Edition: **2018 Code Edition**

Construction Plans

Most projects require a site plan, elevations, and floorplan. For this project, are you able to provide this information to the Fire Marshal's Office by uploading it now or by mail or email later?: **Yes**

Supporting Information: Construction Plans

A request for a permit shall be accompanied by a true copy (an accurate representation by dimensioned plans and specifications of the final construction documents) of the plans and specifications for that construction, reconstruction, or change of use. The Commissioner shall issue a permit only if the plans comply with statutes and lawful regulations promulgated to reduce fire hazards.

Submit blueprints/plans that are clear, legible, accurate, and complete. A design professional such as an architect or engineer may be required. Call and ask if you are not sure. Either way, the office must obtain for the plan review (1) copy of each of the following:

Site Plan showing relationship to adjacent buildings, roads, and hazards. Indicate which building or part thereof is the one requesting a permit. Indicate true north. The site plan must be to an indicated scale or have measurements.

You have agreed to provide this information by email or mail.

Elevations showing the side view of the building from each side. Label each elevation. (The south elevation is the side of the building that faces south). If the building is existing and the renovations to the exterior are minor, then a snapshot of each side view of the building may suffice.

You have agreed to provide this information by email or mail.

Floor Plans of every level of the building, including the basement, (and parts that are not being renovated if this is an existing building).

You have agreed to provide this information by email or mail.

Attention To (OPTIONAL):

If you are already working with a specific plan reviewer, please indicate that here: **Veilleux, Marc**

Other comments::

Attest & Agree

You cannot submit this request unless you attest to the accuracy of the information provided within this application.

I hereby certify that the information provided on this application is true and accurate to the best of my knowledge and belief.
