That's what I thought.

Thanks

Shelly

Good morning -

Whatever you think works best for the project will be fine.

The ones they sign are most important.

Penny

Subject: Plan sets for Planning Board

Hi Penny,

I'm getting ready to send the plans out to the printer today and I was wondering if you thought it necessary to print full 30" by 42" plans for the structural drawings and elevations. There are about 20 pages of those, so I was hoping to maybe provide the site plans that are needed for signature in full size, and then the rest of them at 11x17.

If you can confirm that before tomorrow, that would be great.

Thank you

Shelly
